**Report: TAME Trailblazer Trip – Campus of the University of Texas @ Austin
March 1, 2008**
Hosted by the University of Texas and the Women in Engineering Program

Thanks to donations and volunteer support from the University of Texas and the Women in Engineering Program (WEP), **more than 1300 students, parents and teachers** in Austin were given the unique opportunity to experience the TAME Trailblazer, a 40-foot mobile science and engineering exhibit trailer. The Trailblazer was one of many attractions on the campus of the University of Texas, celebrating 'Explore UT Day'. Explore UT is an annual open house for all would-be engineering students and their families.

The Trailblazer is a unique and engaging tool that provides hands-on, interactive and memorable experiences that encourage interest in science and engineering.

Current UT Engineering students and faculty served as volunteers for the Trailblazer event, introducing parents and students to the wonders of science and engineering. A big thanks goes to Tricia Berry and her team of volunteers for supporting the event.

Together, we make a difference because of the continued efforts of our longtime supporters and active partners such as University of Texas at Austin, ConocoPhillips, Shell Oil Company, Dow Chemical Company, Halliburton, IBM, and many others who join us in devoting time and energy to our most important natural resource – our children.

Thank you for your ongoing support.

Sincerely,

A handwritten signature in cursive script that reads "Michael Nevels".

Michael Nevels
Trailblazer Program Coordinator
