Report:
TAME Trailblazer– Earth Science Career Day
October 11, 2005
Sponsored by UT Bureau of Economic Geology

On Tuesday, October 11th, the TAME Trailblazer hosted student tours during Earth Science Career Day, an event held at UT's Pickle Research Campus in Austin.

We were very fortunate to have two wonderful volunteers who acted as tour guides inside the trailer for the entirety of the event, sharing their knowledge and expertise with the students and teachers who toured!

During the event, **more than 115 middle school students and teachers** toured the trailer, engaging in science and engineering hands-on exhibits. Students laughed and learned as they explored the exhibits and interacted with the professionals who volunteered their time inside the trailer. Thanks to Sigrid Clift for obtaining sponsorship and for providing our talented, engaging volunteers!

TAME's Trailblazer program* continues to be an important outreach tool. Program goals include introducing visitors to the many viable career options that exist in science, technology and engineering and encouraging young people to view science as fun. With help from partners such as the UT Bureau of Economic Geology, we are certain we are making a difference.

Thank you for your continued support of our programs!

Sincerely,

A handwritten signature in black ink that reads "Shari Getz".

Shari Getz
Executive Director

**The Trailblazer program is made possible in part by a grant from the Texas Education Agency and is supported by additional funding received from Dow, Shell, the University of Texas at Austin, and ConocoPhillips.*
