

Help Inspire the Next Generation of Texas Engineers!

TAME supports the potential of all students to pursue their engineering dreams.

Volunteers are at the heart of TAME's programming, and there are many different ways to get involved:

- Start a TAME Club in your community
- Support your local TAME Club by leading an activity, being a guest speaker or organizing a field trip
- Volunteer at one of the annual TAME Regional Engineering Competitions
- Volunteer for the day at a regional TAME Competition
- Offer professional consulting to TAME, including pro bono marketing, business, and policy consulting
- Join TAME's Regional Leadership Team to bring more TAME Clubs to your region and help coordinate competitions

TAME's afterschool engineering education programs are offered in communities statewide for middle and high school students, at no cost to families.

LEARN MORE ABOUT HOW YOU CAN GET INVOLVED!

Club Leader Name & Email Address:

TAME Club Information:

Regional networks of volunteers, schools and community groups provide Texas students with a strong foundation for success in engineering. For more information about volunteer opportunities with TAME please email programs@tame.org.
